PUBLICATIONS

Corey, D.M. & Wolf, G.D. **Management By Resource** (and associated workbooks for each department in a city government.) Napa, CA.: Wolf, Corey, Inc., 1984. Taught that managers' efforts increased productivity and reduced risk more effectively when keyed toward removing 9 obstacles to performance than motivating employees. Became the basis for our organizations organizational consulting efforts for the better part of a decade. Was central to work discussed in Corey & Wolf (1992) and Wolf (1994).

TESTS DEVELOPED AND ADAPTED

B-PAD. With David Corey and Randy Rand. Interactive test of interpersonal Behavior (interpersonal sensitivity and task completion). The BPAD is used by over 600 Public Safety Agencies in the United States, Canada, and Australia.

Personal BluePrint Inventory (PBI) 180 question test. Two versions: one measures 14 interpersonal situations; the other measures 10 POST Traits. Normed on police applicants and more general population (at <http://personalblueprint.com/bluePrint/blueprint.html>)

Irrational Beliefs Test (IBT). A widely used and recognized test of cognitive behaviors (Woods, P. 1992). I developed an interpretation schema, IBT: Interpersonal Beliefs Test, related to Attachment Theory, but that used all extant questions and norms.

Dispatch Multiple Tasking Test. Computer based test of all components of multiple tasking and then true multiple tasking. The results print out scores of each component and multiple tasking scores including mistakes.
